Subject: Open letter regarding [country's] UN policy

Dear [name],

[optional opening line thanking them for something, perhaps previous discussion of country's policy's with UN Secretary-General or at the UN General Assembly]

I am concerned about [country's] future security and the welfare of all nations striving for improved welfare and human rights in our world. Please clarify for myself and others, [country's] policies regarding this.

Does [country] support United Nations goals of global welfare and lawful process? Are the globalisation of *lawful process*, the *International Covenant on Civil and Political Rights*, and the *International Covenant on Economic, Social and Cultural Rights* beneficial to [country's] foreign policies? Were UN General Assembly resolution 1752 (XVII) and the [country's] vote in accord with previous Assembly resolutions 1514 and 1541 (XV), the *United Nations charter* and the *Universal Declaration of Human Rights*? And does [country] object to the International Court of Justice being allowed to provide advisory opinion on the legality of international agreements and the sovereignty of the people who were the subject of General Assembly resolution 1752 (XVII)?

With much respect and looking forward to your reply at your earliest convenience,
