

Security Treaty – for whose benefit ?

We need to promote regional human rights,
not a security treaty seeking to maintain US mining and the TNI

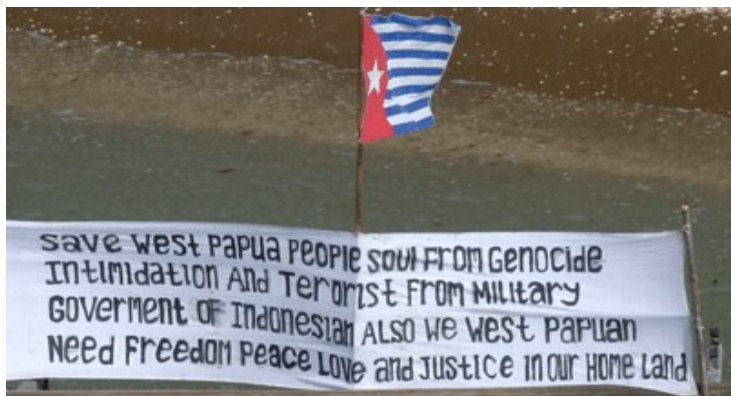

If Australians don't speak up who will ?

The deceptions do not matter -
West Papua is a colony.

1936 NNPM discovers Ertsberg ("Ore Mountain")

1962 McGeorge Bundy (Skull & Bones member) & Robert Komer convince Kennedy West Papua must be sacrificed to save our world from communism.

In January 2006, 43 West Papuan asylum seekers set off on an historic journey by dug-out canoe from their beloved homeland, fleeing persecution at the hands of the Indonesian Military (TNI).

Although denied public schooling or access to English, they had prepared a banner to ensure their message was heard.
Our government responded by flying them to Christmas Island.

George Bush and John Howard support the Indonesian military (TNI) who repress freedom of speech and are business associates of U.S. companies like Exxon, Freeport McMoRan, and Bechtel.
We ask Australians to support the people of the Provinces, like West Papua, instead of the military.

You can help, spread the word, write online about West Papua as a colony and its human rights to self-determination as described in the United Nations Charter and General Assembly Resolutions 1514 and 1541;
you can write to your federal Minister, or help organise rallies or advocacy groups to lend your voice to speak for the people still living under colonial repression.
