Letters to The Times

Crisis of Program Serves Benchmarks

The writers of the following letters to the Times have, as in previous issues, offered us a lttle help in our decision whether to continue the "Preparedness" program.

We feel that our nation has been warned by the crisis of the previous month, and that the public has been warned by the crisis of the previous year. We cannot afford to allow this crisis to pass without acting on it.

We are now at an important stage in the development of this program. We have the opportunity to move forward and make progress. We cannot afford to let this opportunity pass without taking action.

We ask you to consider the following suggestions:

1. Increase the size of the army
2. Increase the size of the navy
3. Increase the size of the air force

We believe that these actions are necessary to ensure our national security.

We look forward to your consideration of these suggestions.

Sincerely,

[Signature]
